The organizer reserves the right to verify the validity of these documents. Current EU legislation mandates that models be marked with the pilot's e-ID , Regulation (EU) 2019/947 Art. 14 (eID). We will verify the e-ID and model markings according to FAI regulations at the competition. A participant is considered a young person up to and including

Lokal competition regulations:

the calendar year in which they turn 18 years of age.

1. Start direction

The starting direction will be determined by the competition organizers. Any special circumstances will be announced on site.

2. Preparation time

The 5-minute preparation time is only officially announced for the first starting group of each flight task. All subsequent participants will simply be called up in due course.

3. Task A: Duration

The flying field for both full-size aircraft and model aircraft can be used for the timed flight task. Appropriate safety zones will be defined and communicated at the opening of the World Cup. The priority of full-size aircraft remains unaffected by any exceptions.

4. Task B: Distance

The airspace for distance flying can only be used in a southerly direction. Landings must take place in the area designated by the competition management.

5. Task C: Speed

The time limit is 3 minutes. The task is usually flown seamlessly, meaning the time limit starts automatically after the previous pilot's model lands. Any special circumstances will be announced on site.

6. Competition procedure

The competition management reserves the right to adjust the order of the flight tasks to the circumstances due to weather, time constraints, and technical reasons.

Further local rules and the regulations of RC Model Club Brno can be announced during the morning briefing.

Anti-doping regulations: Anti-doping regulations of the DAeC and the anti-doping rules of the National Anti-Doping Agency (NADA).
